Gaggia Gelatiera Ice Cream Maker Repair | Things I'm Doing

This is a Gaggia Gelatiera ice cream maker from the early 80's. While small in size, it's a very heavy italian made machine. It's significant weight (nearly 50lbs) is due to the built-in refrigeration system. In most ice cream makers you need to either pre-freeze a water lined bowl, or use rock salt and ice to cool the ice cream mixture.

Gaggia 74500N Gelatiera Review | Great but expensive!

If you are into making your own ice-cream, and can afford to spend £300 on a machine, then I can recommend the Gelatiera - far superior to the cheap non-compressor pre-freeze ice-cream makers. Easy to use and clean and you can use virtually anything as ingredients, provided you use the basic ice-cream recipe. Super-smooth soft Italian style ice-cream, sorbets are great and granites (ice slurry booze!) are even better.
