### **Garment construction techniques - Textile School**

Comprehensive and profusely illustrated, Unit Method of Clothing Construction, 7/E, promotes the unit measure of construction as a time-saving approach to sewing. In this method, each garment section is treated as a unit to be completed to the greatest extent possible before being attached to other garment sections.

### **Clothing Construction: Terms, Basics & Methods | Study.com**

A flat seam is constructed by having two pieces of fabric meet precisely at their edges. A cover stitch is used to sew the two pieces of fabric together. This stitch has multiple needles and creates a stitch perpendicular to the seam line. A flat seam is the basic seam joining the edges of two pieces of fabric.
