Bing: Primary Care A Collaborative Practice

Collaborative activities in primary care Teams perform several collaborative activities that enable them to share information about patients, coordinate care, identify problems, develop intervention plans and define shared goals (131).

Primary Care - 5th Edition

As a primary care provider, it requires more coordination between providers, more reading, more notes, and less in-person time with the patient. The care manager, in turn, has more face-time with the patient and is able to direct that time in a useful way. Collaborative Care improves the quality of care we provide.
