### **Solar Water Heating--Revised & Expanded Edition: A ...**

Solar home heating and solar space heating is possible because of the higher output of heat energy that solar evacuated tubes provide. Combining solar water heaters with both domestic hot water and space heating maximizes the return on your investment. Our solar heating system easily adapt to any form of home heating including forced air furnaces, radiators and hydronic floor heating.

## **Solar Water Heating--Revised & Expanded Edition - Benjamin ...**

Solar water heating systems almost always require a backup system for cloudy days and times of increased demand. Conventional storage water heaters usually provide backup and may already be part of the solar system package. A backup system may also be part of the solar collector, such as rooftop tanks with thermosyphon systems.
