A call option gives you the opportunity to profit from price gains in the underlying stock at a fraction of the cost of owning the stock. Put option: Put options give the owner (seller) the right (obligation) to sell (buy) a specific number of shares of the underlying stock at a specific price by a specific date.

### **Options Trading For Dummies 2019 - YouTube**

Investors and traders use options for a few different reasons. For example: You can potentially make a profit—and not just when a stock rises, but also if it goes down. Options allow you to invest in the market while committing much less money than you would need to buy the stock outright. Options can help protect your portfolio.
